Limited Use Policy

- Encourages service members to self refer for substance abuse problems. Commanders are not required to initiate separation actions on Soldiers who self-refer.
- To facilitate the treatment and rehabilitation of identified abusers who demonstrate the potential for rehabilitation and retention.
- Limits the negative actions that can be taken against a service member who self refers and admits drug use or alcohol abuse.
- Protects the service member from charges of admitted use and prohibits the use of certain types of urinalysis test results in court-martial, UCMJ, or for an unfavorable characterization of service. These test results are Protected Evidence.
- Is not a "Get out of Jail Free Card" for a unit urinalysis. Once a service member is notified of a urinalysis, it is too late to self refer for that test.
- Does not protect a service member regarding future drug use or possession of drugs.
- Does not protect against other illegal activities associated with previous use such as stealing, assault, etc.

NOTE: A member can still be administratively discharged, but will still receive an Honorable Discharge.

* For more information on Limited Use Policy contact PR&O office or refer to AR600-85.

FAX (334) 274-6300

PREVENTION

Prevention is a proactive process which empowers individuals and systems to meet the challenges of life events and transitions by creating and reinforcing conditions that promote healthy behaviors and life-styles.

Our mission for the Prevention, Treatment and Outreach (PTO) Initiative is to provide prevention training, treatment referrals/resources, and outreach to military families; that would positively impact retention efforts and enhance combat readiness.

TREATMENT

The abuse of alcohol and drugs has a detrimental effect on attaining and maintaining combat readiness.

Soldiers must realize the risks they take affect everyone in their unit.

Without treatment, alcohol and drug abuse leads to addiction. If you need assistance, please call us today. Treatment resources are available for service members and their families.

OUTREACH

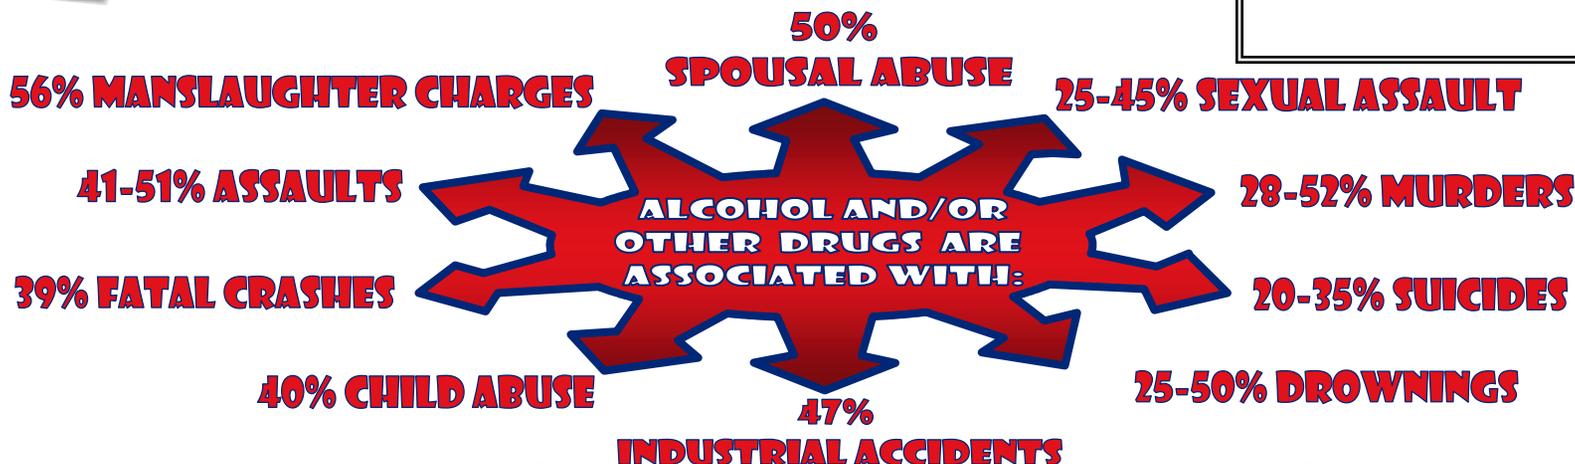

Prevention Training is the key to mission success. For more information, please call:
